SUMMARY

Innovative individual with proven success evaluating requirements for software development projects to design innovative solutions. Out-of-the-box thinker and problem solver dedicated to improving performance. Works well in teams and consistently delivers to deadlines. Responsible Developer passionate about delivering outstanding quality and service. Offering 1 year of experience in industry with history of recognition for performance.

EXPERIENCE

Software Development Analyst, 05/2021 - Current

Accenture - Pune, India

- Wrote clean and dynamic code, leveraging expertise across Java languages to meet diverse requirements.
- Evaluated project requirements, identified challenges and proposed alternatives using research and data.
- Assisted quality assurance team with testing software, investigating bugs and developing test cases.
- Contributed to sprint planning, prioritising backlogs to meet new demands.
- Aligned projects with requirements and specifications to deliver above-benchmark results.
- Kept pace with changing coding standards and requirements and maintained updated software.
- Helped team complete smooth, professional software deployments for applications.
- Integrated third-party applications into existing software, enhancing features and performance.
- Devised test cases to support enhancements and expansions of functionality.
- Supported software code review, system integration and validation in line with company and regulatory requirements.
- Managed team resources to deliver on sprint goals within expected timeframes.
- Performed software testing and diagnosis, supporting ongoing system development.
- Interfaced with a cross-functional team of business analysts, developers and technical support professionals to determine a comprehensive list of requirement specifications for three new applications.
- Worked effectively with cross-functional design teams to create software solutions that elevated client-side experience and significantly improved overall functionality and performance.
- Collaborated with cross-functional development team members to analyze potential system solutions based on evolving client requirements.

TOOLS AND LANGUAGES

- JAVA
- SQL
- C++

SKILLS

- Core Java,Java 8 and SQL
- OOPS
- Web application development
- Testing and debugging
- Research and Development (R&D)
- JSP , Servlets, JDBC,Hibernate,
- Spring Core,Spring boot (Beginner)
- Design and development
- Software development life cycle
- Milestone assessment and achievement

EDUCATION

Bachelor Of Technology : Electrical Engineering, 2021
College Of Engineering And Technology,Bhubaneswar - Bhubaneswar

- Dissertation in Electrical Engineering with a Total CGPA 8.67.
- Member of The Dance Association,Social and Cultural Union of college

- Python (Beginner)
- Eclipse
